

VISION STATEMENT

To inspire and empower each other to achieve our personal best.

MISSION STATEMENT

To provide education in an inquiry-based environment that nurtures holistic and balanced lifelong learners, who will create a better and more peaceful world.

SCHOOL ANTHEM

Acorns International arise and shine.

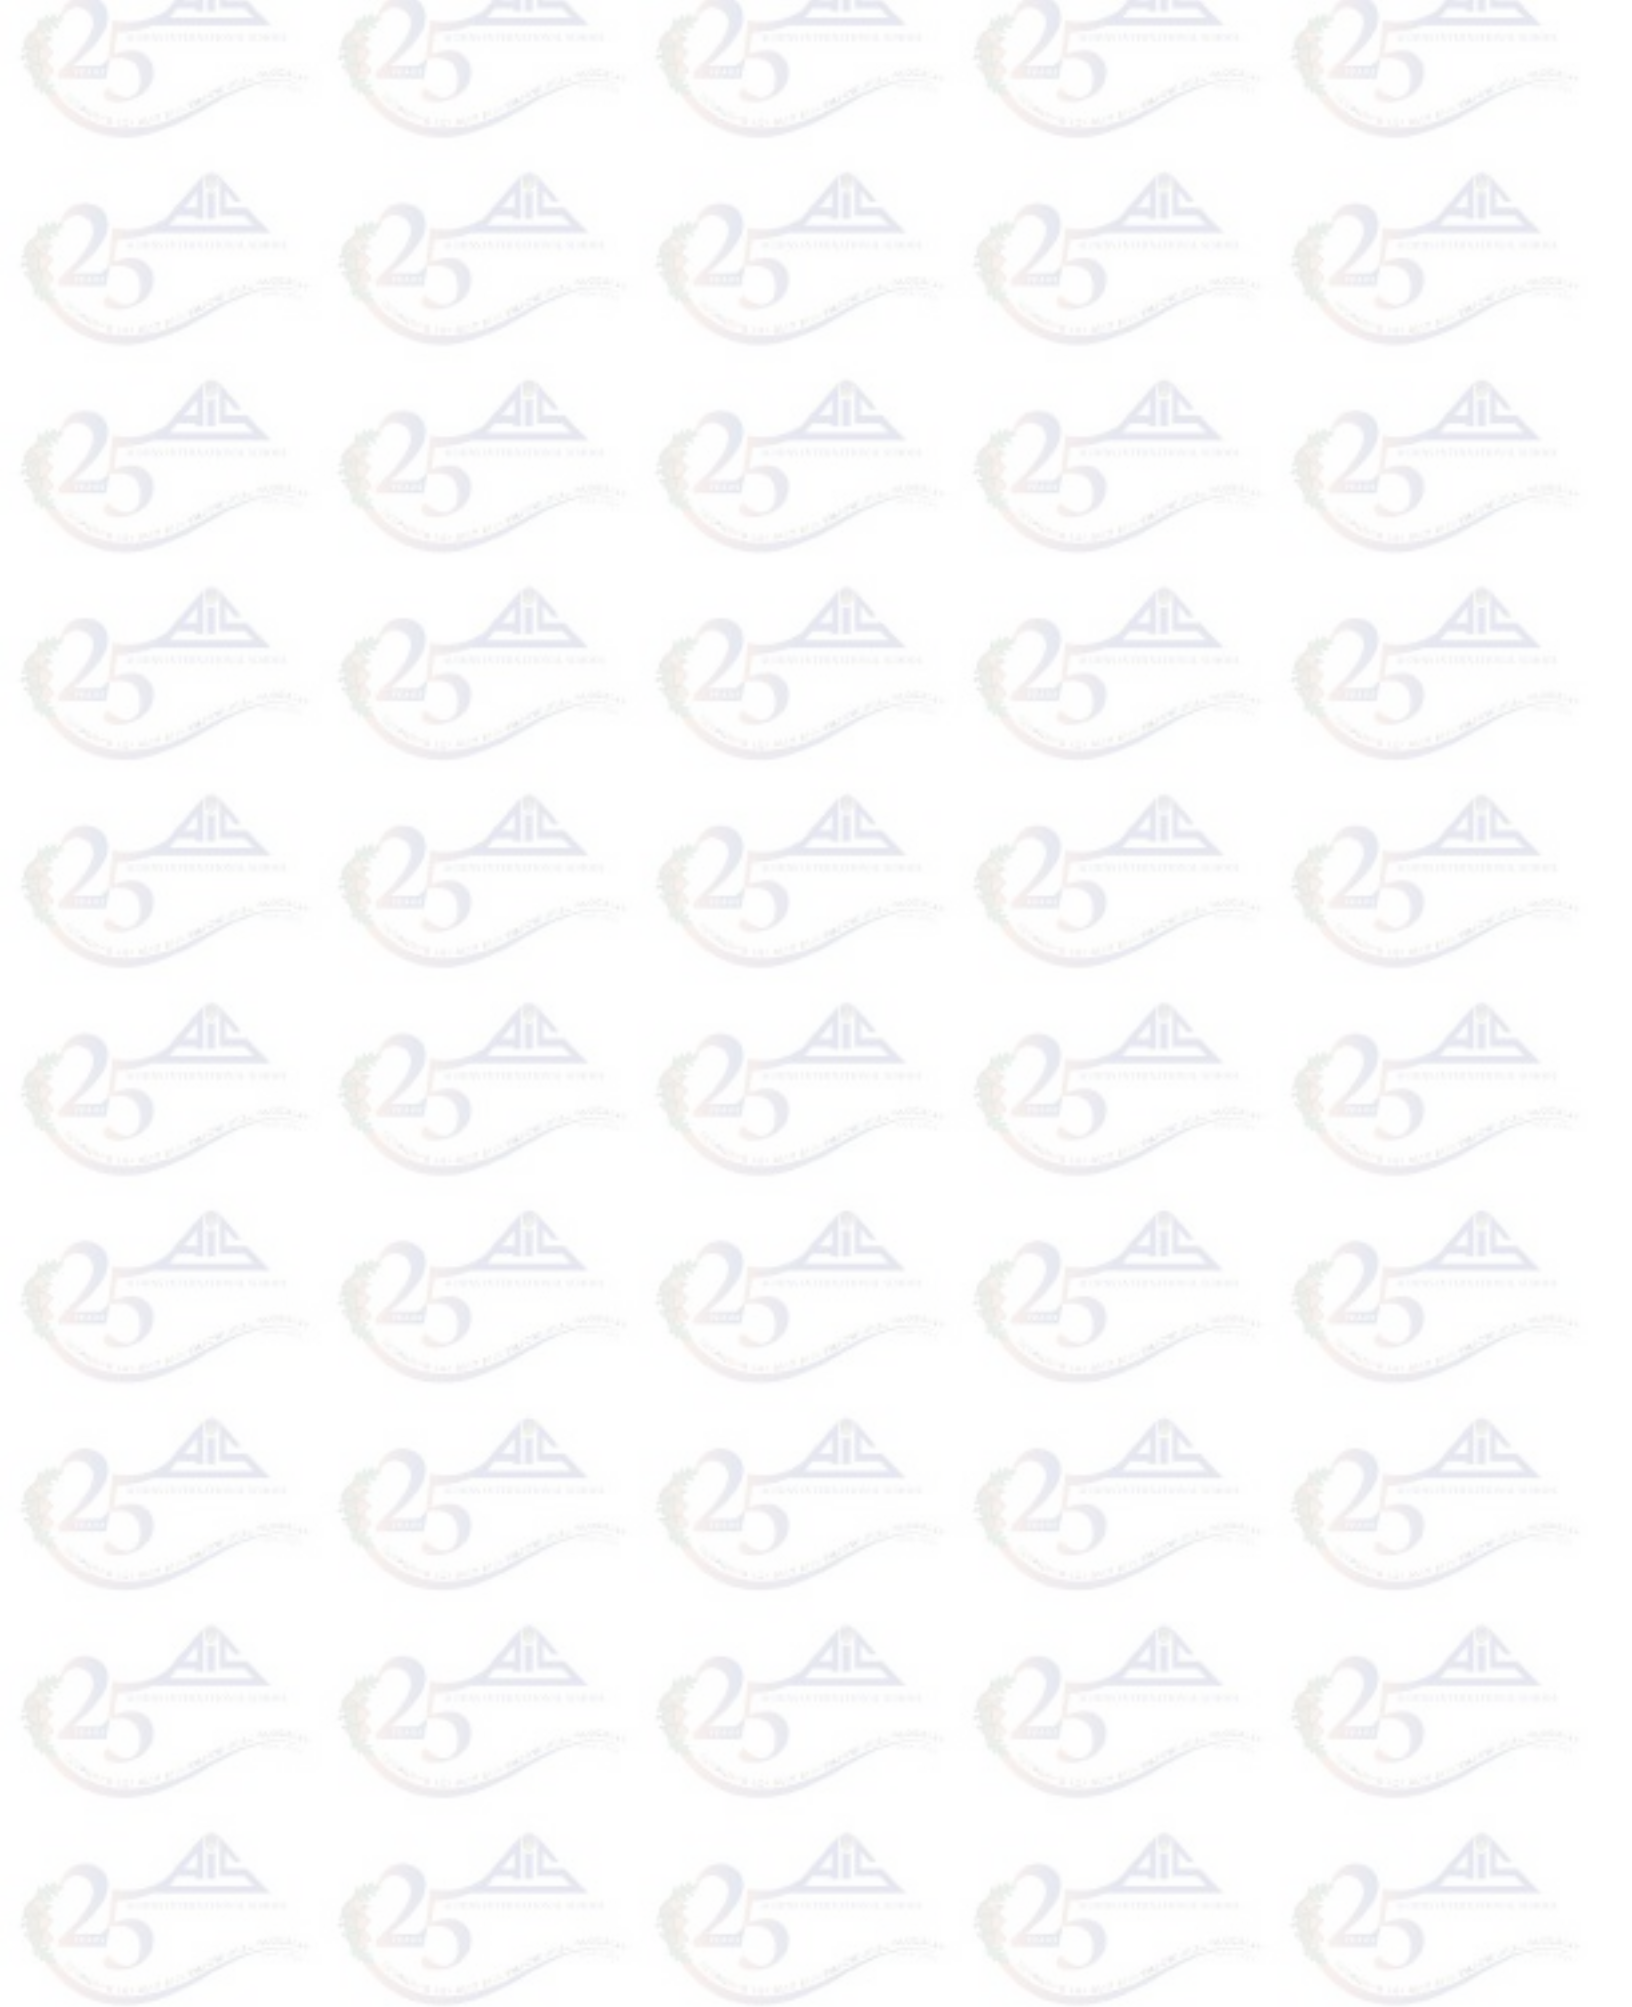

We inspire and empower each other, to create a peaceful world with a strong foundation, we aim for the highest, build for tomorrow and strive for success.

We inquire and aspire to be lifelong learners. With morals and values we shine in all nations.

Academic excellence we seek with the finest education for all.

Acorns International arise and shine.

We inspire and empower each other, to create a peaceful world with a strong foundation, we aim for the highest, build for tomorrow and strive for success.

MESSAGE FROM HEAD OF SCHOOL

“The creation of a thousand forests is in one acorn”

-Ralph Waldo Emerson

Dear AIS Family,

Firsts are always special. And this year has been just that. Our 25-year journey celebration coincided with our first International Baccalaureate Diploma Programme (IBDP) and Cambridge A Levels students graduating and now reaching far and wide – Australia, USA, UK,

Canada, India and Ireland. When was the last time you experienced something for the first time?

So much happened at Acorns International School (AIS) this year that putting it in words will be an impossible task. This yearbook will be the testimony of all that has transpired this academic year 2021-22.

When we started in August 2021, there were so many of us hoping that this would be the year we reclaim our lives. And to some extent, we did! In January 2022 we opened our campus to students, something we missed for two years! Over the next six months, we worked hard to ensure that our AIS Families assimilate back into the new routines and that our students make up for some of the gaps caused during the pandemic.

As we end this academic year, I would like to acknowledge the efforts of so many of our students, staff and parents in the AIS community during this year. The extraordinary commitment made by all our staff, academic and support staff alike, means that we can continue to succeed and flourish as a learning community.

Ameena Latani

FOREWORD:

This year threatened to be like the previous two, with 'new normal' losing its novelty. But here we are, with so many memories collected over the year.

AIS@25 Years

Our journey from being a sapling in Nakasero to a strong Acorn tree along the Northern Bypass has been a fruitful one. On the evening of June 18, 2022, we celebrated the past with several heartwarming videos from the Founders, previous Heads of School, staff and students, we celebrated the present with wonderful performances by the AIS Choir and Dance team and presentations from students and the future with innumerable possibilities. This evening stood testimony to all that we have achieved and celebrate each day over the last 25 years.

PARENT TEACHER ORGANISATION

Every year, a vibrant group of individuals bring their uniqueness together, to add more dimension to our daily lives at AIS. The Parent Teacher Organisation (PTO), at AIS, has always proven that when great minds amalgamate, the outcome is a constant celebration!

STUDENT REPRESENTATIVE ELECTIONS

At AIS, we believe in celebrating every student's unique voice and giving them multiple opportunities to be heard. One such avenue is Student Elections. Every academic year, students contest to become Captains and Vice Captains of each house team, and this decision is made by their peers through voting.

SCHOOL TEAMS

Our vision is to create holistic individuals, and for many students, this means honing their skills in the field of Sports. Our teams are part of the International Leagues, and do us proud!

SCHOOL TEAMS

Football Team

Football Team

Badminton Team

EVACUATION DRILL

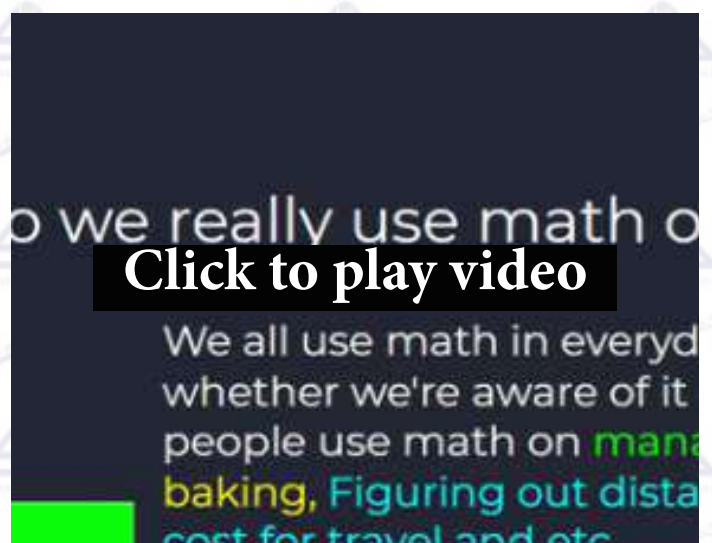

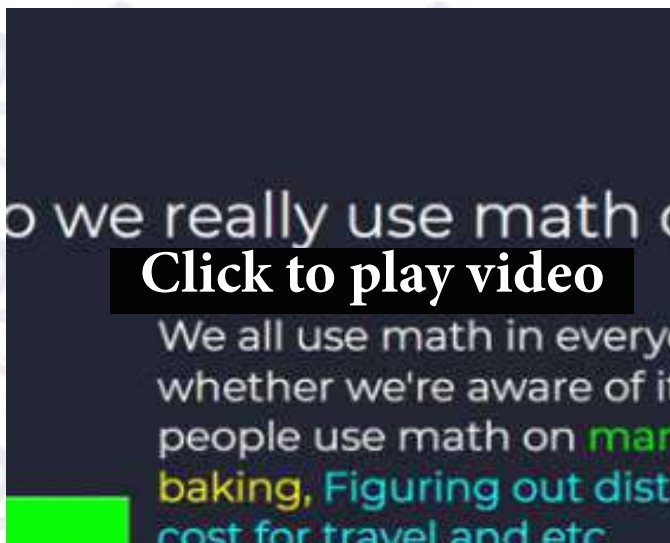

“Hoping for the best, prepared for the worst, and unsurprised by anything in between.” - Maya Angelou. Our Evacuation Drill helps us take the surprise (and panic) out of emergency situations. It helps students understand and mend their reactions, in case of an emergency. Our reaction time gets better with each progressing drill.

PYP WONDER WEEK

“If students leave school less curious than when they have started, we have failed them.” – George Couros

From PYP 1 to PYP 6 our teachers were surprised and delighted with the wonders and ideas the students brought forward and explored.

SCHOOL PLAY

This year's school play, King Lear, gave our students a (virtual) creative outlet to rewrite Shakespeare's play in their own unique style!

VIRTUAL FIELD TRIPS

Every year, students journey outside the realms of a traditional classroom to give wings to their learnings, and this year was no different (with a slight twist, of course)!

VIRTUAL FEILD TRIPS

Year 1 Tulips

On our field trip we visited mars and had a good time exploring the space station. The students enjoyed and shared their reflections.

INTERNSHIPS

At AIS, our vision is to inspire and empower young people. Meaningful and planned experiences provide a platform for our students to reflect and empathize with the world around them. With this aim our upper secondary students had a two-day internship at MUKISA Foundation exploring how different abled children learn and live.

INTERNSHIPS

SERVICE WEEK

They say, “Earn your success based on service to others, not at the expense of others.” This is a message we live by, and try to inculcate in our students as well. During Service Week, students find various avenues to help one another out and this looks different in each class.

SERVICE WEEK

MYP3 COMMUNITY PROJECT

The Community Project gives our MYP3 learners an opportunity to learn and solve real-life issues affecting the communities around us.

MYP3 COMMUNITY PROJECT

This year, we partnered with Katakala Village in Mityana District, where learners interacted with the leaders and the community on the issues of health, education and general community wellbeing.

PARENTAL ENGAGEMENT

In addition to an Open Door appointment-based Policy, every academic year we create several opportunities for parents to engage with teachers, department heads and other stakeholders to discuss their child's progress. Over three terms, we love the interactions through student-led conferences, parent-teacher meetings, three-way conferences and parent information meetings (candidate classes).

PARENTAL ENGAGEMENT

SPORTS WEEK

After a break of two years, we were able to enjoy Sports Day with parents and students! Such a fun week!

PYP6 OVERNIGHT TRIP

At the end of their PYP journey, our PYP6 students have several avenues to take their learnings outside the classrooms. During their overnight trip, these students prove their mettle through various fun tasks and learn to work with their peers, which is a step towards their teamwork for their PYPX.

PYP6 OVERNIGHT TRIP

TALENT HUNT

Each year, we provide students with a platform to showcase their talent... And talent they did display !!!

[Click to play Talent Hunt Highlights](#)

TALENT HUNT

FRANCOPHONIE DAY

“Learning another language is not only learning different words for the same things, but learning another way to think about things.” AIS students have so many opportunities to express themselves in more than one language!

FRANCOPHONIE DAY

2EC SAFARI WEEK

On Friday, each class visited three other National Parks (classrooms). Here, the homeroom students explained the learned facts about their park and wild animals to their visitors.

EC SAFARI WEEK

MATH WEEK

Every student at AIS is given myriad opportunities to express themselves in ways that suit them best. During this year's Math Week, students learnt to have fun with numbers and arithmetic.

DESIGN EXPO

MYP1 to 4 students had the chance to show off their design projects to parents, students and teachers in the auditorium. Over 50 groups presented their products linked to the Sustainable Development Goals, such as T-shirts with a social message, the evolution of radio, artificial light production etc.

DESIGN EXPO

MYP4

Students created models of various light solutions for rural areas and demonstrated the steps of the design cycle.

"I got to learn a lot about the different solutions that were created by other students. I especially liked the way we used the design cycle."

Students demonstrated the steps of the design cycle through the innovative product that they created.

MYP2

Students developed models and working prototypes of various radio technologies using the design cycle.

"I enjoyed the parents' support and interest in our final work and dedication to the projects at the design expo."

Students developed models and working prototypes of various radio technologies using the design cycle.

"I learned about the evolution of the radio and how a cell tower works. With the use of hydroelectricity projects in houses, there was a few awareness of globalisation, mass and religious beliefs."

"The design expo increased my collaboration skills. It has given me the opportunity to create something that will benefit the general public."

"I got to see everybody's work at the design expo and most of their projects were creative like in my class they made a lot that it needs to speak and answer some questions."

MYP3

Students created a newsletter that connects to one of the six global contexts.

"I learned that the design expo is a chance for people to showcase different projects. The expo was a great opportunity. I also learned that the design expo helps to describe different things happening in the world and how we as a society can come up with solutions to different problems going on in the world."

"I learned how to collaborate with groupmates and succeed with our project. I like to talk confidently without hesitating."

Students created a newsletter that connects to one of the six global contexts.

"Not only did I learn about the evolution of technology, its advantages, disadvantages, etc. but I also learned more about organization skills. I learned that the expo is a public presentation. I should plan ahead more as well as make more meetings with my partners in order to be more prepared."

MYP1

Students created custom-designed t-shirts that represented one of the six global contexts.

"Students created custom-designed t-shirts that represented one of the six global contexts."

"I learned about the evolution of the radio and how a cell tower works. With the use of hydroelectricity projects in houses, there was a few awareness of globalisation, mass and religious beliefs."

"I learned about very many things because there was another presentation going on about making radios and different things while other people did some experiments. I learned that there are many ways to communicate using shirts whether for fashion or for raising awareness."

"I learned about how the industrial revolution has affected today's world and how to make a t-shirt design. I got to understand how the industrial revolution played a role in many of history's biggest events."

PYP6 MOCK EXHIBITION

Our PYP6 class is on their journey to finish their Primary Years Programme through the completion of the PYP Exhibition (PYPX).

On Thursday, March 24 and Friday, March 25, the PYP6 students completed the “Mock” Exhibition. The Mock is for students to practice their public speaking and presentation skills, by creating a presentation about themselves, before completing the final Exhibition.

PYP6 MOCK EXHIBITION

PYP EXHIBITION (PYPX)

This year, our students chose to focus on the United Nation's Sustainable Development Goals and the problems the world is facing in meeting these goals. On Friday, June 17, the students presented their multi-disciplinary projects to their families and PYP5 students.

PYP EXHIBITION (PYPX)

MYP EXHIBITION (MYPX)

The MYP5 Personal Project Exhibition is a core part of the MYP curriculum. Students must develop a learning goal based on a passion, and then plan how to create a product over several weeks that will allow them to achieve their learning goal and develop ATL skills. This year, these ranged from making a couch to crocheting, writing a report about antibiotics, building a gaming PC and creating a cookbook.

MYP EXHIBITION (MYPX)

SHADOW DAYS (EC-PYP)

Reception students from Early Childhood Department enjoyed the introduction session where they had the chance to have a look into the PYP1 classrooms, meet the PYP1 teachers and engage in activities like real PYP1 students do.

SHADOW DAYS (PYP-MYP)

In order to give a taste of what to expect in MYP and smoothen the transition from the Primary to the Secondary Department, PYP6 students took part in shadow days between April 25th and April 29th 2021.

They attended MYP1 classes in Language & Literature and Science and were able to experience elements of the MYP1 curriculum, as well as familiarise themselves with teachers and the surroundings.

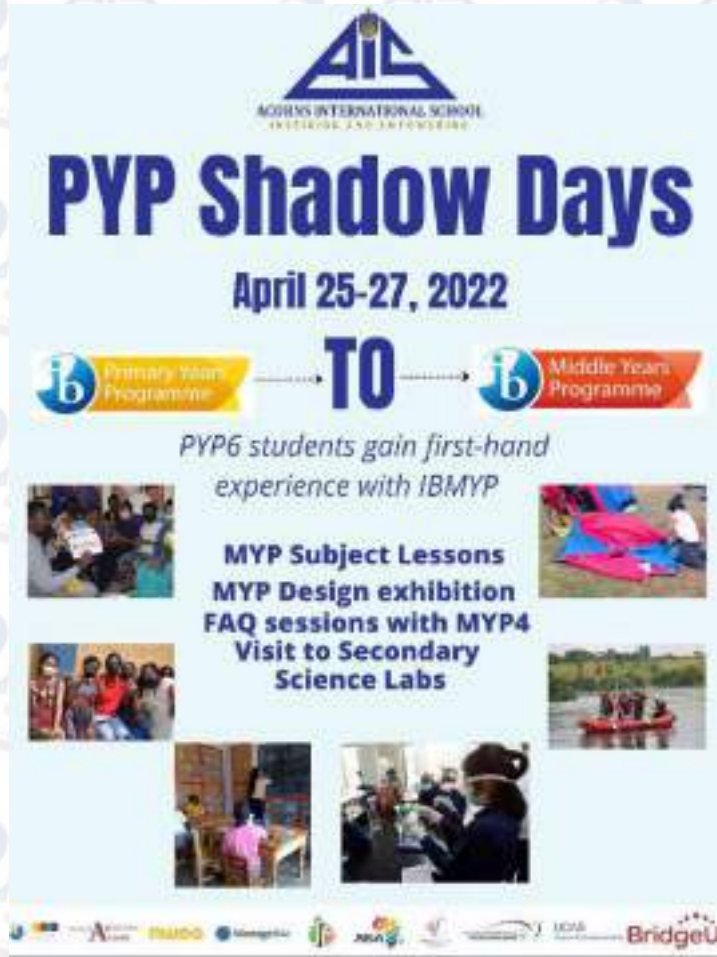

They also attended the MYP Design Expo in the auditorium to get a feel for a subject that is new to students joining the MYP. Following their shadow classes, students had a question-and-answer session with some MYP4 students, where they were able to get students' perspectives on the MYP.

Overall, students felt it was a positive experience that went some way to making them feel at ease with the transition to the Secondary department.

CREATIVITY,ACTIVITY,SERVICE (CAS)

The mission of AIS is to provide an education that nurtures holistic and balanced lifelong learners. Throughout Term 2, our Upper Secondary students involved themselves in a series of service activities in a bid to raise money to support the Uganda Cancer Institute. These activities included a bake sale, tie-dye, and staged musical performances.

AIS - CAMBRIDGE SCHOOL

<https://www.cambridgeinternational.org/why-choose-us/find-a-cambridge-school/?Location=Uganda&City=Kampala>

AI IN THE NEWS

We lead by example... This helps us raise the bar for ourselves each year! We are proud of each member of the AIS Community who represented our ethos of lifelong learning outside the AIS Campus too.

I was glad to work with Teachers in Kigali Rwanda in a 2 day workshop as the school ramps up for the IBMYP Verification visit. At #ACIBS (Africa Center for International Baccalaureate Support) we delight in supporting teachers and schools in Africa to effectively prepare for #ibpyp , #ibmyp & #ibdp verification and evaluation visits. #ibo #IBAfrica #CreatingIBworldSchoolsInAfrica

ACORNS MARKS 25 YEARS

By Joseph Bahingwire

Acorns International School (AIS) Uganda has been offering world-class education to its students and commits to continue offering unrivalled education to its students in Uganda and abroad.

On June 18, 2022, the school celebrated its 25-year journey with several members of the AIS family, old and new. The journey from The Acorns School in Nakasero to Acorns International School on Kisota Road in Kisaasi, Kampala has been a momentous one.

Speaking during the celebrations at the school in Kampala recently, the school head, Ameena Lalani, said the 25-year-old institution had carved a niche for offering exemplary, world-class educational standards at an affordable price to Uganda, thereby, growing from a preschool in 1996 in Nakasero to an International Baccalaureate (IB) Continuum World School.

"We are proud of our five-acre purpose-built campus that nurtures the holistic and balanced development of every child be it 18-month or 18-year-olds. The campus is fully-equipped, be it smart classrooms to multiple playing fields, libraries, computer labs, science labs

THE CAMPUS IS FULLY-EQUIPPED, BE IT SMART CLASSROOMS TO MULTIPLE PLAYING FIELDS, LIBRARIES, COMPUTER LABS, SCIENCE LABS

or design and tech labs. We offer a multi-language programme that includes French, Kiswahili, mother tongue and Spanish will be added soon," she said.

The school is an authorised IB continuum school, offering the primary, middle and diploma programme, making it only the second institution in Uganda to offer all these programmes on one campus.

The IB curriculum for students aged three to 19 years is unique because of its academic and personal rigour. AIS Uganda challenges students to excel in their studies and in their personal development by inspiring a love of learning throughout life that is marked by enthusiasm and empathy. The IB aspires to help schools develop well-rounded students who respond to challenges

with optimism and an open-mind, are confident in their own identities, make ethical decisions, join others in celebrating our common humanity and are prepared to apply what they learn in the real-world complex and unpredictable situations.

Lalani added that the school is also authorised to offer the Cambridge A-Level programme, making them the only school in Uganda offering two of the highest-rated parallel international curricula- IB and Cambridge.

PARTNERS, ACCREDITATIONS

AIS also prides itself on various international accreditations such as the Association of International Schools in Africa, Northwest Evaluation Association (NEA), Duke of Edinburgh, Universities and Colleges Admissions Service and Alliance Française Kampala as their partners in providing education that is unparalleled.
